1. Overview of the last year

DH gave an overview of the progress of the NP, which currently stands at version 5.

LP gave an overview of the work undertaken for the Enfield Local Plan and the submission made to the Council. The Council are due to publish the Reg 19 version this summer. It is important that the NP is progressed to adoption, so it becomes a material consideration at a future public inquiry into the Local Plan.

EK gave an overview on why NP's are important and the role they have to play in the planning decision process.

2. Constitution

The draft constitution was emailed to all Forum members and made public on the HWA website. No comments have been received and all attendees voted in favour of adopting the constitution.

3. Election of new Committee

All attendees voted for the following people to form the Forum Committee:

Dawn Wellings
Cindy-Lee Watts
Lakis Pavlou
Steve de Vos
John Leatherdale
Nick Coburn
Esther Kurland
David Harbott

4. Finance Report

DH confirmed that the Forum had obtained all the current available funding of £18,000. SdV asked what the £16,000 had been spent on. DH clarified that it was mostly on consultants' fees in getting to version 5 of the NP. There is a balance of £2,000 remaining. There will need to be additional fund raising in order to get the NP adopted. The committee will consider how best to raise the necessary funding required.

5. Any Other Business

DH confirmed that the committee were working on updating the NP to ensure compliance with the NPPF and London Plan and were hopeful of going out to public consultation on 7th May for an 8 week period.
