

**MOUNT HOUSE
SCHOOL**

INSPIRING EVERY INDIVIDUAL

Report for the Hadley Wood Association AGM

Mount House School has been pleased to work with the Hadley Wood Association since September 2020, and are very appreciative of the opportunity to hire the Bartrams Lane field for our games afternoons. Last academic year these took place on Tuesdays, Wednesdays and Thursdays and we enjoyed a variety of sports: notably football, cricket, rounders and athletics. For the final week of the Summer Term we were able to hold a sports activity week for our Year 7 and 8 students, also using the tennis club courts. We also held our sports day house athletics competition for the whole school on the field. This academic year we have games on every weekday afternoon, and are able to hold some of the programme on our own site while still using Bartrams Lane for some sessions.

Mount House is working on a strategic plan for our sports programme. Over the summer of 2021 we have built a MUGA (multi use games area) which has provided a much-needed outdoor hard surface for netball, basketball, tennis, five-a-side football and more. We will be reviewing our field sports programme and will be keeping in close contact with the Hadley Wood Association as those plans develop in the coming months.

We would very much like to thank the Association for their support, and particularly Robert Wilson who has been a great ambassador for the Association and with whom we very much enjoy working.
